

## UART, Inc. Agent Program

**UART**

transportation

## Drive Your Own Business.

If you are a transportation professional with energy, a strong work ethic and an entrepreneurial drive, we want you on our team. With UART, you can operate your business anywhere in the US, access customers and carriers across the country, and get the start-up tools you need to succeed.

### A Blue Chip Partner

UART is a full-service logistics company with a national footprint and strong regional relationships. As a UART Agent, you'll have access to our large carrier database and will receive the backing of an long-established, financially-sound company with an excellent reputation.

### Unlimited Income Potential

- You determine what you can sell for the customer (gross amount)
- You negotiate the rate the carrier will charge for the load
- The carrier receives what you negotiated
- There is no set commision that limits your income. The greater the profit from the load, the more income you earn

### Look Professional From Day One

Succesful businesses look the part. That's why UART provides our agents with professionally designed marketing materials, including business cards, letterhead, brochures and mailers, and online sales tools.

### UART TOOLS FOR AGENT SUCCESS.

UART offers our Agents and their customers top-notch tools and services. From back office support such as credit checks, carrier set-up, and accounts P/R to sales and marketing tools, UART provides all the resources you need to launch a thriving and profitable business.

- Administrative support
- Call Center Support
- Prospect list for your area
- Marketing Materials
- Initial lead generation
- Multi-office support
