

## UART, Inc. Services and Capabilities

**UART**

transportation

## One Source. Many Solutions.

UART is a full-service logistics sourcing company with a personal commitment to solving your freight management challenges. We operate throughout North America, providing supply chain solutions backed by long experience and formidable multi-transportation expertise.

Our solutions are scalable, with a wide range of services supported by personal service and a solve at all costs spirit.

### Truckload

Whether it's flat bed, team, refrigerated or partials, UART's savvy truckload sourcing professionals locate the most cost effective carriers and track shipments door to door.

### Less Than Truckload (LTL)

Relationships with the largest carriers ensures reliable service while bundled purchasing provides discounts for all volumes.

### Special Services

Blanket Wrap. Exclusive use, hot shots, convention, and retail solutions.
